

**LSFS14 [NAME OF SCHOOL] 21.4.89**

Aged 17. Saw at school. Light brown hair. Jeans and sweatshirt. Fairly self assured, open and relaxed, but rather casual about interview. I felt that she was saying rather the minimum than the maximum response. Lives with father, mother and brother. Said she was fed up with boys, had only had one sexual experience, which had been with a boyfriend that she'd been with for about 5 or 6 months. She'd wanted to see what sex was like, but found it was boring. Now she's asked out by boys but doesn't want to go. She just goes out with a few mates and hangs around etc. When she'd had sex she'd used a condom, and was fairly aware of AIDS.
